

Blue & Red Companies - The Editable Version

Database source – users' input

In addition to the functions that the fact version has, this visualization allows user update the database. User can update the data by changing the figures (percent and dollar) of company's contribution for both democrat and republican.

Interaction

The feature of this version of visualization is the fact that user can edit contribution of the selected company.

This change will update the color table on the right side.

User can edit the following.

- The percent of contribution for each party
- The amount of money of contribution for each party
